

Budwig Center

Offers alternative natural cancer protocol

For almost 20 years, the Budwig Center has been helping people face Cancer head-on by using natural remedies and treatments.

The scores of positive testimonials have only impelled us to continue to provide the best natural health care based on the protocol of Dr. Johanna Budwig.

Gloria Biermann – No More Bladder Cancer

Regarding my bladder cancer some years ago back in 2012, I ended up doing research because I wasn't at all on board with my urologist recommended treatment.

When I found the Budwig Center, in Spain and I canceled my appointment. Then a few hours later he called me to ask me why I canceled. I told him about your center, and I said I was going to go that route. He said, then will you at least come see me in three months for a checkup because you will want to know if it is working. I said, sure, I will do that.

(3 months later) I went to my appointment and there was no cancer. All he said was to keep on doing what you

are doing and come back again in three months. I agreed and three months later there was still no cancer. I had another appointment three months later with the same result. I can tell you when I was in the waiting room, I wanted so badly to tell people about your center, but I knew that most people would not want to be bothered because of the faith most of us have or had in doctors. I didn't do everything recommended but most things. I steamed all my vegetables, ate no candy, made sure to get 20 minutes of sun on my skin every day, took some aloe vera juice recommended by your site and of course, I ate the quark [Dr Budwig's flaxseed oil and cottage cheese/Quark mixture] every day... I was so thrilled at my results that I would tell my friends, complete strangers sitting next to me on a flight or waiting somewhere where I was. All in all, it wasn't a hard program to follow, and I would recommend it to everyone dealing with cancer. I am

eternally grateful to the Budwig center because hearing you have cancer is terrifying, but I decided to have faith that God showed me your site and gave me enough discernment to give it a try and think positive. Thanks again for all you do for others. – *Gloria Biermann*

Tricia Hardisty – No More Bowel Cancer

"I would recommend everyone to try the Budwig muesli [flaxseed/linseed oil and cottage cheese/Quark mixture] especially if they have had or have cancer. I had bowel cancer – stage 3. I had chemo followed by taking the muesli every day for 4 months. My tumour markers have reduced and stabilised since taking the muesli and there is no sign of cancer in my latest scan.

The help and guidance that is available from the BUDWIG CENTER in Spain is incredible. The people

are informative and kind. I can't thank everyone enough. I am spreading the word."
