

Mazagan Beach & Golf Resort

Unleash your inner golfer at Mazagan Beach & Golf Resort

Nestled between a eucalyptus forest and 7km of golden sand on the shores of the Atlantic, and located only one hour away from Casablanca airport, Mazagan Beach & Golf Resort is spread across a 250 hectares domain. The resort offers endless options to curate the most unique experiences. 492 guest rooms and suites overlooking the west coast of the Atlantic Ocean, the swimming pools or gardens, with spacious family rooms for large families spending their holidays together, a fully modular conference hall, endless outdoor spaces, a myriad of dining options with 13 restaurants & bars ranging from decadent international buffets to

French bistro cooking and high-end gastronomy presented by renowned chefs, including two Buddha-Bar brands, first Buddha-Bar Beach in Africa and first Bushra by Buddha-Bar in the world. Mazagan Beach & Golf Resort offers a wide array of outdoor activities for exhilarating adventures by the beach or the forest, an award-winning Spa bringing together cutting-edge product, with the best of natural ingredients, a larger-than-life casino, an exquisite golf course and unforgettable experiences anchored in culture, wellness and nature.

Mazagan Beach & Golf Resort is a world-renowned destination for golf enthusiasts from around the globe, the resort features a stunning 18-hole golf course that has been expertly designed to challenge and delight golfers of all levels.

Set alongside a 3km stretch of the stunning Atlantic coastline, Mazagan's world-renowned 18-hole course, was designed by the renowned Gary Player, who has been called one of the greatest golfers in the history of the sport. Player's design incorporates the natural landscape of the region, follows the gentle curves and slopes of the dunes, to create a course that is both beautiful and challenging.

The course itself is 6,885 yards long, with a par of 72. The fairways are wide and inviting, while the greens are expertly maintained to ensure a smooth and consistent putting surface.

One of the standout features of the golf course at Mazagan Beach & Golf Resort is the stunning scenery. The course is set amidst the natural beauty of the Moroccan coastline, with panoramic views of the Atlantic Ocean, the beach, and the surrounding dunes. Golfers will also encounter a variety of natural features, including sand dunes and natural vegetation, that add to the challenge and beauty of the course.

In the spirit of environment conservation, the dunes and valleys throughout the course have been crafted entirely with sand found on site. The grass variety, "Paspalum Platinum", chosen for the course was selected because of its environmentally friendly growth cycle, requiring less water, fertilizer and pesticides. Additionally, in line with the resort's fundamental principle of respect for its environment, 80% of the irrigation needs of the golf course are covered using recycled effluent water from the resort's water treatment plant.

In addition to the main 18-hole course that is perfect for beginners or those looking for a more casual round of golf, the course is also home to a state-of-the-art practice facility, featuring a driving range, golf academy, putting green, and bunker practice area, where golfers can hone their skills before taking on the main course.

Mazagan Beach & Golf Resort offers an unforgettable golf experience in a stunning natural setting. Whether guests are seasoned pro or beginners, the resort's 18-hole course and practice facilities are sure to challenge and delight them.
